

For 60 years, Millbrook Baptist Preschool has been dedicated to the education of young children believing it to be important in their development. We maintain low teacher to student ratios in order to optimize the children's learning environment. We are blessed to have several teachers with more than 10 years experience teaching young children; some with as many as 20 years. All of our teachers are actively involved in continuing education and training.

OUR PURPOSE

Millbrook Baptist Preschool is dedicated to providing an educational setting for preschool children ages 9 months to 5 years which will facilitate skill development in the creative, physical, social, emotional, language, cognitive and spiritual domains.

Through a program based upon the preschooler's needs and abilities, we help each child to become secure and happy and to enjoy being a preschooler to the fullest.

PHILOSOPHY

We focus on methods of teaching based on a proper understanding of child development.

Play is the work and language of children, and skillfully-directed "work-play" is the foundation of a good preschool.

We recognize the value of work-play to children and use it throughout our curricula.

WEEKLY ACTIVITIES

We have a special activity for our preschoolers each day of the week.

- Art**
- Music**
- Kids Yoga**
- Chapel**
- Storytime** - MBC members come in and read to our students

CHAPEL

First and foremost, Chapel is designed to teach children that they are loved by God and to encourage their love for God.

Chapel is taught jointly by the ministers of the church. Chapel is held weekly in the church sanctuary for our 2-5 year olds.

PARENT PARTNERSHIP

We believe that parental participation is key to any successful child care program. At Millbrook Baptist Preschool, we welcome parental involvement. We have an open-door policy that allows parents access to the preschool during operating hours. Some examples of parental involvement are: parent council, individual conferences, classroom volunteer, field trips, and sending in special treats and snacks.

CURRICULUM CONCEPTS

Children participate in an environment with varied activities that stimulate the child to develop in many areas. As the children mature, they will study subjects in more detail.

- Individual Development** - positive and confident self-image, an interest and joy in learning, respect for others, empathy, cooperative learning, and independent problem solving skills
- Emergent Cognitive Skills** - pre-emergent writing, beginner spelling, comprehension, pre-emergent reading, sequencing, and story retelling
- Social Skills** - learning about multicultural diversity, geography, family, and community
- Math** - one-to-one correspondence, patterns, estimation, non-standard measurement, number recognition, addition, understanding time and shapes in our environment
- Science** - science concepts are demonstrated and applied to real life situations, exploring living and nonliving things, health and safety, the five senses, cooking, weather, water properties, magnets, & exploration of the universe and solar system.

We bring programs to our preschool 3-4 times during the school year to enhance our curriculum and learning. We call these "in house field trips."

LUNCH BUNCH & EARLY BIRDS

If you would like an additional hour of care, you can choose to register for Early Birds or Lunch Bunch. This adds one extra hour onto our regular operating hours; max of 4 hours.

Please note that you may only add either Lunch Bunch or Early Birds, not both. If your child attends Lunch Bunch, your child will bring food from home.

SUMMER CAMP

Every Summer, June through August, campers enjoy fun activities with a new theme for each two-week session. We offer camps for these age groups:

- Wee camp - 16 -23 months
- Early Preschool camp - 24-35 months
- Preschool camp - 3-5 years
- Early Elementary camp - completed K-2nd grade

Wee camp meets Tuesday, Wednesday, and Thursday.

All other camps meet Monday through Friday.

Camp hours are 9:15-1:15
