Thriving Together at Millbrook

During November, we'll be focusing on flexibility as a characteristic of thriving congregations. Flexibility means being adaptable, responsive, and relevant in order that we may act quickly and effectively as new needs and ministry opportunities arise.

The Church has a history of being flexible. In Acts 6, the Apostles created the role of deacon to help better minister to widows. Throughout his travels, Paul had many plans for ministering to neighbors: when one path closed, he would choose a new direction. Sunday School, Wednesday Night Suppers, singing hymns, children's programming, and streaming are more modern examples of flexing to meet current needs.

NOVEMBER

Questions for Reflection

1. What does flexibility mean to you?
2. Where might God be asking Millbrook to try something new?
